

## **Excerpt from Salvation in Hell p 62-69**

**Our Divine Rights:**

*Prophecy*

*April 30, 2000*

*My son, I would speak to you about evangelising the damned.  
The damned are those condemned to eternal punishment  
The denizens of hell are not all of this category  
Hell is a way station on the journey to the Lake of Fire  
Not everyone has purchased his or her ticket yet  
They only wait there with the others  
not realising that a choice will be offered to them.*

*In law, it is necessary to prove that a defendant has understood  
the rights that apply to them with regard to their charges.  
This will determine which evidence is admissible against them.*

*A spouse may not testify against their (own) spouse  
They have a covenant  
Those who are not mentally capable of comprehending their  
situation  
cannot offer satisfactory evidence.  
Those who have been misled, entrapped, enticed or brutalised  
Cannot be held liable for any evidence procured under those  
circumstances.  
If any information about their rights is withheld  
A defendant can be said to be ineligible for condemnation.*

*Many who wait in the way station of hell are ineligible for  
damnation  
They cannot receive a ticket to the Lake of Fire  
There is not sufficient evidence to condemn them with  
This does not lessen their torment  
This implies no virtue in that soul  
only that due process has not been carried out.*

*No cases will be thrown out  
Certain judgement will come  
Only after a clear presentation of their rights  
and situation is made.  
Only after a clear choice, for or against their Redeemer is made,  
can the evidence of their words and actions  
become admissible as evidence.*

*Every soul will come to the Valley of Decision at some time.  
Whether they decide in life, or in hell, they will decide.  
I called it the valley of decision and I meant it.*

***The Church on earth must understand this  
It is applied in natural legal proceedings  
(where justice is observed)  
It is also applied in the spirit realm.***

***Present this message to the Church and to the world also  
There are those who will be persuaded to accept their Redeemer  
in order to release grace for those in hell to choose.  
If they make such a request over communion,  
specifying the grace to be released to a particular soul, it will be  
so applied.  
This does not mean that such a soul will accept the grace offered.  
They still have the right to refuse salvation  
But no soul will be kept from the right to choose.***

***Salvations among the living, releases grace for those in hell.  
It always happens.  
Saints need to preach the offer of forgiveness  
They can direct graces by covenant sacrifice - the Eucharist.  
And they can offer their sufferings (the resistance of temptations)  
for more release of grace to choose.***

***Salvation in hell cannot be bought  
Neither can the Church always discern the results of the offer of  
grace  
As with earthly revival, the salvation message must be offered in  
the power of the Spirit and then that soul must be trusted to My  
care.  
The Church's responsibility is to see to it that the offer of salvation  
is given,  
be it amongst the living or among those in hell.***

***Do not fuss about doctrines  
Preach it and I will bring it to pass.  
I am the Lord I have spoken.***

***March 3, 2002***

***You command in the realm in which you are.  
You can command the prince of the power of the air  
But you must petition Heaven.  
Only when transferred to the realm of the damned  
Can you speak My name so as to cause knees to bow.  
From earth you can bind the plans of hell  
But you cannot command or effect the workings of that region.  
Only in hell do you have dominion over its denizens.  
Only in that atmosphere will the anointing for gathering***

**function to: overthrow the ban on preaching the gospel there  
And release the power of true repentance unto salvation**

**In the Natural realm we are told, concerning our rights:  
You have the right to remain silent. Anything you say can and  
will be taken down and used as evidence against you. You have  
the right to an attorney/advocate.  
You may choose one or else one will be appointed for you.  
In the realm of the Spirit our rights are similar.  
They are the substance of which our natural rights are only the  
foreshadow.**

**You have the right to speak words. You are created in God's  
image.<sup>i</sup>  
Everything you say can and will be recorded  
and used as evidence at your final judgement.<sup>ii</sup>  
You have the right to an advocate/Redeemer – Jesus.<sup>iii</sup>  
If you do not choose him then another has already been appointed  
for you, Satan.  
Adam chose him on your behalf.**

**If you choose Jesus as your Redeemer then you have rights in  
worship:  
The right of access to Gods throne of grace through Jesus  
The right to be indwelt by the Holy Spirit  
The right to personal communion with the Father  
The right to eternal life in the presence of God.<sup>iv</sup>**

*The dead cannot access these rights because they cannot offer true worship.  
Grace is required to restore the ability to worship amidst the atmosphere of hell  
and hence to be able to choose their Redeemer. Worship is the key element in all of  
this. The Lord spoke about worship on two occasions in 1999.*

**January 27, 1999**

**My son, I said in My word that the dead do not worship  
Me.**

**Those who are dead in the flesh have no will or ability to  
worship. (in hell)**

**Those who are dead in their spirit have no desire to  
worship Me. (the unsaved)**

**It is for this reason that I destroy death, to enable  
worship.**

**Worship is the right relationship of a child of Adam, to  
Me.**

**I am the Ever-living God and I am worthy of worship and  
praise.**

***My Son made possible the exchange of worship by restoring the right to man, to be in relationship with Me, not separated (excluded) by their sins.***

***Worship, not joy, is the highest good to which a human being can attain.***

***That is why Heaven is characterised by worship.***

***Joy is a result but not the source.***

***Joy in a human soul is released when, in right relationship with Me,***

***that soul offers heart-felt worship.***

***It is only by knowing Me and knowing My word that such worship can be offered.***

***February 4, 1999***

***My son***

***I have heard your request for further revelation of the defeat of death and I will answer you.***

***Worship is the key to My relationship with Man***

***It is not activity. It is not obedience.***

***Worship is the opportunity for Man to enter in with Me and express what is within him***

***Faith is expressed by worship***

***Love, joy and praise find their highest expression in worship***

***Peace surrounds, and is caused by, worship.***

***Worship is not grovelling***

***It is an opportunity for the creature to return thanks to the Creator***

***It is the time to express the truth of creation by acknowledging the order within it***

***I Am first***

***All that was expressed by Me in creation is of Me, is in relationship with Me***

***By acknowledging the truth of that relationship, peace is produced,***

***Anointing is released and joy is created***

***Worship is the central activity of creation***

***It centres on Me but it involves every part of creation***

***The heavens declare the handiwork of God***

***The very stones would shout***

***Man is not aware of the very loving***

***and active relationship I have***

***with My inanimate creation. Even the birds  
and fish and beasts of the field acknowledge Me  
and are in right relation to Me  
Only Man has chosen to exercise his right  
to withhold worship***

***I sent My Son to restore to Man all of his rights in worship  
Access to My throne of grace  
Access to My life-giving Spirit  
Personal communion with Me  
and eternal life in My presence  
All these rights were restored by Jesus' sacrifice***

***But the dead do not have these rights  
Those who have been taken to the depths of hell  
are in an atmosphere of rebellion that is so profound,  
their spirits are categorically unable to offer true worship  
Only Jesus was able to worship Me in hell  
Only His spirit was pure enough  
and powerful enough in the word.***

***My Spirit did not descend with Jesus to hell  
but My word was in His spirit  
Jesus was one with the Word. Jesus was the Word.***

***It is by worship that Jesus brought heaven into hell  
It is by worship that creation is restored  
It is by worship that all that is created is sustained  
in right relationship with everything else and with Me***

***Worship is the key to everything  
You can see then why it was necessary for Me to release the  
dead  
For the sake of worship.***

***If "The dead do not worship" as David wrote  
then death had to be destroyed  
Nothing could be allowed to prevent worship  
Nothing can come between Me and My creation.***

***I have spoken  
I am the Eternal Father.***

These revelations speak of the immense importance of worship in salvation and its importance to creation itself. It is the motive and justification for what God is doing for the souls in hell. If you choose Satan you have the right to be separated from God throughout eternity in a lake of fire that will never be quenched. It is your

right to withhold worship. But it is also your right to be allowed the choice to worship God and no legal impediment such as death or any other created circumstance can prevent your right to worship.

***What are our Divine Rights?:***

***It is God's will that all men should be saved.<sup>v</sup>***

***Therefore it is my right to be saved.***

***God has planned to get this news to me.<sup>vi</sup>***

***Therefore it is my right to hear.***

***God knows what it takes for me to hear.<sup>vii</sup>***

***Therefore it is my right to be preached to,  
in a way that I can receive.***

These are inalienable rights. They belong to everyone, whether they claim those rights or not. God is just. He is the guarantor of our rights. He will protect our right to choose, our free will. Love can only be given by a free act of the will. Therefore it is necessary to God that we keep that freedom to choose. We can even choose hell and separation from God. That is the risk which love takes. So our Loving Father must see to it that every soul, in every age and in every place has the opportunity to exercise the right to accept or deny Jesus as their redeemer/saviour. It might happen at a crusade. It might happen on a deathbed. It might happen in the pit of hell itself but God will not let anyone be denied his or her right to choose.
