

Why a Hellrazer's Bible?

I have been given a revelation of salvation in hell to release to the Church. There is so much resistance to hearing this message that I believed it to be necessary to provide Bible study tools to help people see the revelation for themselves in the Word of God.

For this reason I have highlighted (in three different translations of the Bible which correspond to the three main branches of the Church) passages referring to salvation in hell. I also highlight references to God's Justice, Salvation and Blessing. These four concepts are necessary to establish a Biblical understanding of the possibility of offering salvation to those in hell who have never once heard a credible presentation of the Gospel.
